PROFESSIONAL SUMMARY

Junior Software Quality Assurance Engineer with hands on experience in Manual Testing across web, mobile (Android/iOS), ERP, SaaS, MVP, WordPress, Shopify, and API-based applications. Skilled in functional and non-functional testing and third-party API testing within Agile environments. Proficient in defect identification, debugging, test documentation, and ensuring high product quality through comprehensive testing practices.

WORK EXPERIENCE

Ropstam Solutions — Junior SQA Engineer (April 2025 – Present)

- Tested Web/Mobile Apps, WordPress websites, Shopify stores.
- Created detailed test cases and collaborated with teams to ensure quality.
- Initiated self-learning of JavaScript for Playwright, laying the groundwork for future automation testing capabilities.

Ropstam Solutions — SQA Intern (November 2024 – March 2025)

- Learned and applied manual testing concepts, QA processes, and defect reporting practices.
- Assisted in UI/UX, functional, and regression testing of web and mobile applications.
- Created test cases, reported bugs, and collaborated with senior QA engineers to validate fixes.

Front End Intern — Dilligent Technologies (July 2023 – Sept 2023)

- Developed front-end interfaces using HTML and CSS.
- Utilized Figma and Adobe Photoshop to understand and visualize designs.
- Used Visual Studio Code for programming.
